

Dear business partners,

Announcement of Curacen P.O. + Capsule Change

1-44-4 Tomigaya, Shibuya-ku, Tokyo
Japan Bio Products Co., Ltd.

We extend our sincere congratulations on the continued prosperity of your esteemed company. We deeply appreciate your consistent support.

We would like to inform you of the upcoming changes to the HMPC capsules used in Curacen P.O.+ cord, as detailed below:

1. Purpose of change

By changing from the commonly used white capsules to red and white two-tone capsules, we aim to enhance visual recognition, making it easier to identify Curacen P.O. solely through its capsule.

2. Changes details

	Before Change	After Change
Capsule Size	Size 1 (content: 350mg/capsule)	No change
Capsule Color	Cap: White Body: White	Cap: Red Body: White
Logo Imprint	With “JBP” imprint (vertical direction)	With “JBP” imprint (circumferential direction)
Colorant	Titanium dioxide	Titanium dioxide、Ponceau 4R、 Brilliant blue FCF

3. Implementation period

Changes will be effective from lot “2026.05”.
